Musculoskeletal (MSK) Care Management Program

Dean Health Plan works with NIA Healthcare for review and authorization of our <u>Musculoskeletal (MSK) Care Management Program</u>. This includes prior authorization by the treating physician for non-emergent inpatient and outpatient musculoskeletal surgeries, specifically hip, knee, shoulder, and lumbar and cervical spine.

This new program incorporates the following key components:

- Applicable to the following Dean Health Plan product lines:
 - o Commercial Dean HMO
 - o Dean POS
 - o Dean PPO
 - o Dean Focus EPO
 - o Dean Administrative Services Only (ASO)
 - Dean Advantage
 - o Dean Medicaid
- NIA's Musculoskeletal (MSK) Care Management Program manages the medical necessity review for non-emergent inpatient and outpatient musculoskeletal surgeries through physician authorization, prior to performing the surgery.
- Members who require the services of a provider who is not a Dean Health Plan network provider may require two authorizations. The initial authorization will need to be obtained for the use of the non-network provider via the Dean Health Plan Utilization Management Department.
- Authorization may be submitted using NIA's website www.RadMD.com or the NIA toll-free phone number at (866) 307-9729.
- Musculoskeletal surgeries included in this program are non-emergent hip, knee, shoulder, and lumbar and cervical spine surgeries. For information regarding codes, see Spine Surgery Codes or Knee, Hip or Shoulder Surgery Codes.

NIA Healthcare Customer Service

• You can contact NIA's customer service representatives Monday through Friday, from 7:00 a.m. to 7:00 p.m. (CST), at (866) 307-9729.

Providers without Access to the Dean Health Plan Provider Portal

There are a small number of Dean Health Plan-contracted providers that do not have access to the Dean Health Plan Provider Portal. For these providers only, a written Authorization Request form must be used. If you are a provider that does not have access to the Dean Health Plan Provider Portal, please follow the guidelines below:

- The various Authorization Request forms can be found on the Medical Management page of DeanCare.com;
- Authorization request forms should be mailed or faxed on the date the request has been completed to ensure timely processing of the authorization request;
- Please complete all fields on the top part of the form in their entirety, otherwise the Dean Health Plan Utilization Management Department will return it to the referring physician for completion;
- Authorization requests must be signed by the ordering provider if they are indicated as pre-service medically urgent; and
- When an authorization is requested to a non-contracted provider, please include as much information as possible regarding why the request is being submitted and the plan provider(s) that the member has already seen. The Dean Health Plan Utilization Management Department will review the authorization request to ensure that (1) medically necessary care has been requested and that (2) the service(s) requested are not available with plan providers.

All written Authorization Request forms must be either faxed or mailed to Dean Health Plan using the following information:

Fax Number	(608) 252-0830
Mailing Address	Dean Health Plan ATTN: Utilization Management P.O. Box 56099 Madison, WI 53705

NOTE: Any prior authorization submitted as 'Medically Urgent' that does not meet the definition of medically urgent and/or does not have a physician's signature may be changed to 'Administratively Urgent'. This determination is made only by medically licensed personnel, and includes a call to the requesting provider's office advising of this change and determination.

NOTE: Only services that are not provided within the Dean Health Plan provider network are considered for approval with a non-contracted provider.
