SECTION 1 – INTRODUCTION

About This Provider Directory

This directory is current as of 7/28/2017. This provider directory lists in-network plan providers by county, according to the location where Dean Health Plan has approved them to provide services. Other types of plans may offer different provider options. See your member certificate if you are not sure which plan you have.

There are symbols that appear next to names listed in this provider directory. These symbols provide important information you will need when choosing a provider. Each page displays a key to explain what the symbols mean.

Go Online To Find a Provider

Although this provider directory was accurate at the time it was printed the provider network may have changed. You should confirm our network providers before you seek care. You can do this by viewing our online provider directory at **deancare.com/doctors**. You can search by name, specialty, location and more.

Your Primary Care Provider (PCP)

When you enroll as a Member you will choose a PCP to manage your health care. Your PCP evaluates your total health needs and provides personal medical care in one or more medical fields. Our PCPs are listed within this provider directory, or you can visit **deancare.com/newmember**. There, you will find the most up-to-date listing of providers and information about finding and choosing your new PCP.

Changing Your PCP

You are free to switch to a different PCP at any time. If you are changing to another PCP within the same clinic, you may ask that clinic's staff for assistance. Otherwise you can change your PCP on DeanConnect (Dean Health Plan's member portal available on deancare.com) or call our Customer Care Center.

Areas of Practice

PCPs generally focus on certain medical areas of practice and each area has its own benefits:

- Family medicine focuses on health care for the entire family. Some family medicine providers include obstetrics, which is the care of women during pregnancy and childbirth.
- Internal medicine focuses on adult medicine and the aging process (ages 18 and older). Some internal medicine providers have a particular focus on complex or multiple ongoing health conditions.
- Pediatrics focuses on childhood medicine and health care (up to age 17).

Prior Authorization

You must get prior authorization from us before you receive certain services or procedures. If you fail to get Prior Authorization for any covered service which requires an authorization, you, the Member, will be responsible for paying up to 100% of the total cost. Review the Member Guide on **deancare.com/members** to learn more about the prior authorization process.

You can also call our Customer Care Center at 800-279-1301 for more information. Refer to your member certificate and benefit summary for benefit limitations and coverage details.

Get the Right Care

When you need care, first call your PCP or primary care clinic for an available appointment.

If your need is more immediate, urgent or emergency care may be appropriate.

- Urgent care is meant to treat medical problems sooner than a scheduled office visit. If urgent care is needed, go to an Urgent Care Clinic, which is generally open evenings and weekends.
- Emergency care is for illness or injuries that are life-threatening. In the case of an emergency, call 911 or go to the nearest emergency room.

Urgent care and emergency room copays are generally higher than office visit copays. Visit **deancare.com/rightcare** for more details about getting the right care.

Dean On Call

Have health questions or not sure if you need medical care? Call our free 24-hour nurse line at 800- 57-NURSE to speak with our exceptional registered nurses. Due to licensing laws, Dean On Call services are only available to Wisconsin residents.

Dean*Connect*

Get online access to your plan information at any time. With DeanConnect, you can review your benefits, change your PCP and much more! Visit **deancare.com/newmember** to register today.

Pharmacy

Our pharmacy page provides information about which medications are covered and what programs are available. Visit **deancare.com/pharmacy** to learn more and to search for a pharmacy near you.

Dean Health Plan Customer Care Center

Toll-free: (800) 279-1301 (TTY: 711)

Monday - Thursday, 7:30 am - 5 pm Friday, 8 am - 4:30 pm

We're Here To Help

Need help selecting a PCP or have other questions about your plan? Call our Customer Care Center at 800-279-1301. (TTY: 711).

When scheduling appointments or elective procedures, you are strongly encouraged to contact us to verify whether your providers are in our network. This includes for example, your anesthesiologist, radiologist, pathologist, facility, clinic or laboratory. If your provider is out-of-network you will pay more for your care, such as higher copay, deductible and/or coinsurance amounts.

The information contained in this directory may change throughout the year. If you have questions about the providers in our network, please contact our Customer Care Center at 800-279-1301. They can help you find a network provider or explain the financial implications of seeking care outside of our network.

Visit **deancare.com** to find more information about your health care coverage. You can even submit questions online to our Customer Care Center. For complete details about what's covered under you plan, please see your member certificate.

Our office is open to walk-ins from 8 am to 4 pm at 1277 Deming Way in Madison.

How we choose physicians, providers, and hospitals for our networks

Quality of care

Before providers join our networks, we check to see that they have the appropriate education, licensure, and training to provide quality care.

While Dean Health Plan does not utilize specific quality, member satisfaction, cost-related or patient safety measures for selecting providers and hospitals to participate in our networks, we require that all providers meet our stringent credentialing standards, which include the verification of licensure, education, training, and malpractice and sanction history prior to joining our network. Ongoing quality monitoring of physicians and providers is accomplished by checking for licensure and other sanctions, and investigating, tracking, and trending member complaints about quality of care.

Location

Easy and prompt access to the care you need from wherever you are is important. That's why we work hard to include network providers in the areas we serve so that you can get the care you need from local doctors, hospitals and other health care professionals.

To help ensure that you can find the care you need, we consider the following:

- How far you have to travel to see a provider
- The number of available providers in your area
- The number of primary care physicians in your area accepting new patients
- The languages the providers speak
- How long it takes to make an appointment and see a provider
- How easily you can access routine, urgent and emergency care

We strive to ensure that all members have access to a physician or other health care professional within 30 minutes driving time or 30 miles from your home. If we are unable to achieve that we will work with you to find the nearest network provider to meet your needs.

Types of providers

To best meet your health care needs, our networks include a wide range of health care providers. They include:

- Primary care physicians, including family medicine, internal medicine, and pediatricians
- Specialists such as general surgeons, dermatologists and cardiologists
- Skilled nursing facilities and rehabilitation hospitals
- Acute care hospitals
- Behavioral health providers, including psychiatrists and therapists
- Diagnostic imaging centers
-

If you have questions about our networks, please call Dean Health Plan Customer Care Center at (800) 279-1301.

How do I know whether to go to the Emergency Room or an Urgent Care Center?

An EMERGENCY is the sudden and unexpected onset of acute symptoms that would lead a reasonable person to seek immediate medical attention. Emergencies include: heart attacks, strokes, poisoning, loss of consciousness and loss of breathing. Network facilities should be used whenever possible when seeking emergency services. However, if you are unable to reach a network provider please go to the nearest medical facility.

URGENT CARE provides treatment that is needed sooner than a routine doctor's visit. Urgent care is not emergency care. Some examples of ailments treated by urgent care include: most broken bones, sprains, minor cuts, minor burns, most drug reactions and non-severe bleeding.
