			<p>These drugs are all medical injectable drugs, and are not listed on the Dean Health Plan drug formulary. The on-line formulary only lists drugs covered by the pharmacy benefit.</p>	<p>There are claim specific edits for many of these drugs. The edits limit the uses of these drugs to approved indications and dosages. In addition, Dean Health Plan has payment restrictions consistent with Dean Health Plan Medical or Drug Policies.</p>		<p>The Health Plan will not cover U.S. Food and Drug Administration (FDA) approved drugs that are new to the market until the Pharmacy and Therapeutics (P&T) Committee formally reviews and grants approval, within a maximum timeframe of 1 year from FDA approval. If a provider believes that use of a new drug is medically necessary prior to P&T Committee approval, they may submit an exception to coverage form request.</p>	
			<p>J3590 and J3490 are miscellaneous codes used for drugs that do not have a J code assigned by the FDA. New drugs may take between 12-18 months to get a J code assigned</p>	<p>Any drug submitted under either J3590 or J3490 with a cost of \$750 or greater will be reviewed post-claim by Dean Health Plan.</p>	<p>It is recommended that any use of the miscellaneous codes be pre-approved ahead of time through Dean Health Plan Utilization Management, especially for off-label uses from FDA indications.</p>	<p>Pharmacy Drug Exception to Coverage Request Form</p> <p>Medical Injectable Drug Exception to Coverage Request Form</p>
