

January 28, 2021

Dear Dean Health Plan Provider:

Dean Health Plan's Medical Policy Committee has approved the drug policies highlighted in this notification. These changes, and other changes not included in this notification, will also be communicated in the quarterly provider newsletters and available online. Please share this information with others within your organization who may be affected by these changes.

Dean Health Plan requires providers to obtain prior authorization on all drugs with written policies by sending authorization requests to Navitus, unless otherwise noted in the policy. Please note that most drugs require specialists to prescribe and request authorization.

### Changes to Drug Policies

Effective for dates of service on and after May 1, 2021, the following drug:

- Immune Globulin MB9423 — dose must be rounded down to the nearest vial size if calculated dose is within 10% of the nearest vial size. If an eligible dose is not rounded down, clinical rationale is required. Prior authorization is required through Navitus.

### Medical Benefit Drug Policies

Prescribers are encouraged to track changes and review policies in their entirety. Medical benefit drug policies are accessible online via the Dean Health Plan Document Library at [deancare.com/document-repository](https://deancare.com/document-repository) or by visiting [deancare.com](https://deancare.com) and following the step-by-step instructions below:
